## WORK EXPERIENCE

### 2017 Lange Technologies

— *Kigali,Rwanda (Full-Time)*

### 2019 Full-stack Web Developer

I have maintained various client web projects, I also created video compression library using c++.

**IMPACT:** That generated significant profit and long-term value for the company.

**TECHNOLOGIES USED:** PHP,C++,Vanilla Javascript, JQuery,Cpanel Hosting

### 2019 RW Build

— *Kigali,Rwanda (Full-Time)*

### 2020 Senior Frontend Developer

- Created Payment gateway called Guhemba
- Create chat system to allow users on those services to communicate.

**IMPACT:** We allowed 50-300 users to be able to chat and shares some resources.

**TECHNOLOGIES USED:** Vue JS, Web Socket, Laravel,Digital Ocean

### 2020 Wecodefy Ltd

— *Kigali,Rwanda (Part-Time)*

### 2025 Founder, CTO

Collaborated with clients to define solution requirements, accounting for applicable development variables.

**IMPACT:** This led to continuity of using some of our solutions for more than 6 years now

**TECHNOLOGIES USED:** PHP, C++, Laravel, MySQL, Firebase, PostgreSQL, React Js, VueJs Digital Ocean, Bluehost, Heroku, Nestjs, Nextjs, USDD

### 2020 Consultified

— *Kigali,Rwanda (Full-Time)*

### 2026 Senior Frontend Developer

We created school project that helps students find internships and stay connected with their teachers, we also create a system to desing resume and genelate content with AI.

**IMPACT:** This experience strengthened my skills in creating user-friendly interfaces that support real-life student needs

**TECHNOLOGIES USED:** React Js, Vuejs Nestjs, Websocket
